

# PRB - Installation Guide

**Personal Repositories for Bitbucket Server provides a hassle-free personal repositories management.**

## Installation

Installation of Personal Repositories for Bitbucket Server is quite easy. Login as an administrator into your Bitbucket Server and install Personal Repositories for Bitbucket Server via the [Universal Plugin Manager](#).

Once the plugin is installed, click the "Get started" button and set it up in the Administrative Panel.

Installed and ready to go!

**Personal Repositories** v. 1.0.0  
by NetworkedAssets

This add-on has been installed. If you need help getting started, click the link to the add-on documentation from the **Manage add-ons** screen.
